## Message from the President

Dear Readers of Brotherhood,

***Everyone could be a powerful talent!***

You could achieve your own goals if time and energy are persistently invested in personal growth and development. You could become an aspiring leader one day if you are courageous to stand up and lead. You could even achieve tremendous success in life if you are committed to devoting your entire lifetime to create positive sustainable impact on the neighborhood, community and environment.

***“MEMPOWER” is our 2020 slogan!***

Our mission is to create a cohesive and harmonious environment for unleashing the powers of members.

With the above in mind, we would motivate, empower and mentor our members to develop their strength and explore new opportunities in the year ahead.

What would you do next in 2020? Let us join hands to achieve more accomplishments for ourselves, our friends, and our JCI family!

*Paul Lo*

## Message from the National President

Dear Readers of Brotherhood,

One famous American author John C. Maxwell said,

***“The single biggest way to impact an organisation is to focus on leadership development.***

***There is almost no limit to the potential of an organisation that recruits good people, raises them up as leaders and continually develops them”.***

This year, in 2020, it is the 70th Anniversary of JCI Hong Kong. ***“Lead, Connect, Achieve” is our slogan for the year***, which we will mobilise our members to continue equipping themselves with different skills, so that we would be able to change and impact the world around us.

While people from different sectors of the community may benefit from our works, as young active citizens, it is our responsibility to take actions so that we will continue the good works to create positive impact to the society.

***Yesterday is gone, tomorrow has not arrived. Let us act today!***

*Maric Cheng*

## Message from the National Assigned Executive Officer

Dear Readers of Brotherhood,

***Why the Marvel Cinematic Universe (“MCU”) is a marvel? Not because of how many heroes it has, but how many heroes it creates. The same theory applies to JCI.***

Whether or not to be successful is not the number of leaders we have, but the number of outstanding leaders that can be created.

The real success of MCU is how to provide directors and actors with the room to exercise their talents while implementing fantastic styles. Actors can add instant performances to the script, even if ***they belong to the same hero series, the director can shoot for different wonderful styles.***

Likewise, the success of a local chapter relies on ***how to provide members with ample room for development*** under the premise of implementing the JC value.

***With MEMPower, Island Man can be a hero.*** I look forward to JCI Island in creating another “The Infinity Saga”.

*Jonathan Wong*

## Message from the Chief Editor

Dear Readers of Brotherhood,

“One piece of log creates a small fire, adequate to warm you up. Add just a few more pieces to blast an immense bonfire, large enough to warm up your entire circle of friends; needless to say that individuality counts but teamwork dynamites”.

Our Editorial Board is determined to redesign our **“Brotherhood”** based on **new guidelines, new layout and new ideas**. We applied **orange** as our corporate colour and further enriched the content. With content created by many Islanders, a brand-new Brotherhood is now in front of you.

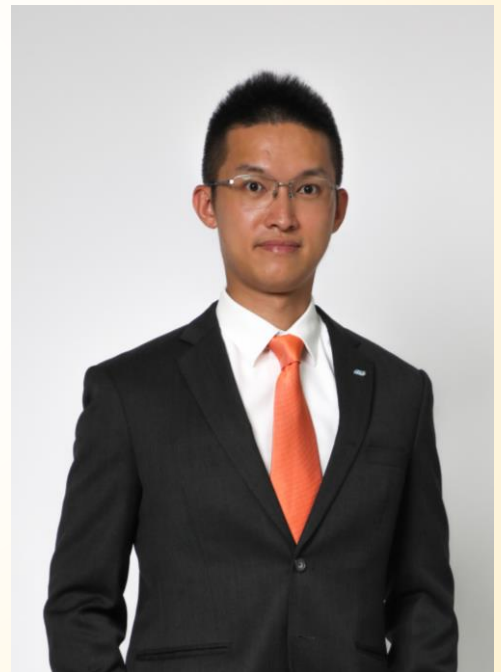

Our project chairpersons shall illustrate their insights on their responsible events and projects, and of course, there are plenty of snapshots on previous events covering various areas.

Finally, I would like to take this opportunity to thank all parties who take part in the publication. Your contribution is highly appreciated!

***Have a good time when reading the Brotherhood!***

## Celebration Dinner after the 54<sup>th</sup> National Convention

*Written by Paul Kwok*

We have successfully hosted the 54<sup>th</sup> National Convention from 20 to 22 September 2019. ***It is the 3<sup>rd</sup> National Convention that JCI Island has hosted in the past 20 years.*** To share our feelings and happiness from this successful event, our National Convention Director, also JCI Island's 2015 President Senator Parco Wu invited all Supervising Officers, Advisors, Organising Committee Members and student helpers for a celebration dinner in October 2019.

We cherished every moment where we have ***devoted, reformed and finally achieved*** the 54<sup>th</sup> National Convention desired by JC members, delegates and guests. More importantly, we have seen each other growing up and believe that we have created more MEMPower for serving the community in our JC journey.

A celebration dinner after the National Convention was held in October 2019.

Immemorable night and joyful reunion

During the dinner, National Convention Director Senator Parco Wu extended his sincere appreciation to Supervising Officers for their considerate guidance, advisors for their valuable insights as well as the Organising Committee Members and helpers for their effective teamwork. It is definitely our honour and privilege to organise the 54<sup>th</sup> National Convention for JCI Hong Kong.
